## R & D, Material Manufacture and Installation – all in one Hand !

Refurbishment is done in order to create a suitable substrata for the installation of a ROADCOAT **G3 OS-11** and/or **CENTRO** system. The requirements are determined by numerous factors, primarily the degree of deterioration and structural movements.

This requires an individual analysis of each such car park.

The standard Warranty for the entire works is than given.

## Minor Refurbishment
